INDEPENDENT AUDITORS' REPORT

To the Honorable President and Members of the Board of Trustees of the Police Pension Plan Village of Bridgeview, Illinois

We have audited the accompanying financial statements of the Police Pension Plan of the Village of Bridgeview, Illinois ("Pension Plan"), as of and for the year ended December 31, 2011, as listed in the table of contents. These financial statements are the responsibility of the Pension Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Pension Plan as of December 31, 2011, and the change in plan net assets for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Accounting principles generally accepted in the United States of America require that the required supplementary information as identified in the table of contents be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by the Government Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management's Discussion and Analysis that the Government Accounting Standards Board requires to be presented to supplement the financial statements. Such missing information, although not a part of the financial statements, is required by the Government Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. Our opinion on the financial statements is not affected by this missing information.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Police Pension Plan of the Village of Bridgeview, Illinois ("Pension Plan") have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The Pension Plan's significant accounting policies are described below.

A. Reporting Entity

The Pension Plan is included in the Village of Bridgeview's ("Village") annual financial report as a blended component unit and is reported as a pension trust fund. The decision to include the Pension Plan in the Village's reporting entity was made based upon the significance of their operational or financial relationships with the Village.

The Village's police employees participate in the Pension Plan. The Village and the Pension Plan are obligated to fund all costs based on actuarial valuations. The nature of the Pension Plan dictates the Village's financial accountability. The Village appoints a voting majority of the Pension Plan's board and the Pension Plan has the possibility of imposing a financial burden on the Village. The State of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of contribution levels.

B. Basis of Presentation - Fund Accounting

The accounts of the Village are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, net assets, additions and deductions. The various funds are summarized by type in the financial statements.

<u>Fiduciary Fund Types</u> - Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the Village. The Pension Plan is accounted for as a pension trust fund.

<u>Trust and Agency Funds</u> - Trust and Agency Funds include Pension Trust Funds and are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and liabilities associated with the operations of these funds are included on the statement of plan net assets. Pension trust fund operating statements present additions to, and deductions from, net plan assets.

C. Basis of Accounting

The accrual basis of accounting is utilized by pension trust funds. Under this method, additions to net plan assets are recorded when earned and deductions from net plan assets are recorded at the time related liabilities are incurred. Pension Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Cash and Cash Equivalents

Cash and cash equivalents represent cash on hand, cash deposited in interest-bearing and non-interest-bearing checking accounts, The Illinois Funds, treasury obligations and investments in certificates of deposit with original maturities of three months or less. The deposit with the State Treasurer's Illinois Funds is at fair value, which is the same value as the pool shares. State statute requires the State Treasurer's Illinois Funds to comply with the Illinois Public Funds Investment Act (30 ILCS 235).

E. Investments

Investments consist of treasury obligations, municipal bonds, government and agency notes, mutual funds and variable annuities held by broker-dealers for pension trust funds with original maturities greater than three months. Investments are stated at fair value in accordance with GASB 31.

F. Short-Term Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds of the Village for goods provided or services rendered. These receivables and payables that relate to the Pension Plan are classified as "Due from Village" or "Due to Village" on the statement of plan net assets.

2. DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS

At December 31, 2011, the Pension Plan's carrying amount of cash was \$1,805,321 while the bank balances were \$1,805,321. Account balances totaling \$620,587 were insured by the FDIC and additional collateral. As of December 31, 2011, the Pension Plan had \$1,184,734 in uncollateralized funds.

Illinois statutes authorize the Pension Plan to invest in obligations of the U.S. Treasury, agencies and instrumentalities, commercial paper issued by corporations organized in the United States with assets exceeding \$500,000,000, savings accounts and certificates of deposit issued by financial institutions insured by the Federal Deposit Insurance Corporation, repurchase agreements, short-term discount obligations of the Federal National Mortgage Association, dividend or share accounts of a credit union which accounts are insured, money market mutual funds with portfolios limited to securities guaranteed by the United States and the Illinois Fund.

The following schedule reports the fair values and maturities (using the segmented time distribution method) for the Pension Plan's investments at December 31, 2011.

	_	Investment Maturities				
Investment Type	Fair Value	Less Thar One Yea		Six To Ten Years	Over Ten Years	
investment Type	<u>rail value</u>	One rea	rive reals	<u>Tell Teals</u>	Tell Teals	
Municipal Bonds	\$ 1,143,674	\$ 101,29	95 \$ 239,019	\$ 363,862	\$ 439,498	
U.S. Government Notes	591			-	591	
U.S. Agency Notes	7,204,015	225,02	29 2,307,184	4,485,889	185,913	
U.S. Treasury Notes	3,070,301			1,105,947		
Total	<u>\$11,418,581</u>	\$ 326,32	<u>24 \$ 4,510,557</u>	\$ 5,955,698	\$ 626,002	

2. DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS (Continued)

The remainder of the Police Pension's investments were invested in mutual funds (\$3,764,656) and variable annuities (\$268,454) which do not have maturity dates.

Interest Rate Risk - The Pension Plan has the following guidelines in its formal investment policy that limits investment allocation as a means of managing its exposure to fair value losses arising from increasing interest rates. Equity investments shall be limited to 10% to 30% of fund investments, fixed income investments shall be limited to 60% to 90% of fund investments and cash and equivalents should not exceed 20% fund investments.

Custodial Credit Risk - For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Pension Plan will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Pension Plan's investments were fully collateralized as of December 31, 2011.

Credit Risk - The Pension Plan's investment policy requires all fixed income investments to be of investment grade quality or higher at purchase. Also, according to the provisions of the Illinois Compiled Statutes, fixed income purchases shall be limited to obligations issued or guaranteed as to principal and interest by the U.S. Government or any agency or instrumentality thereof, or to corporate and municipal issues. All securities shall be of "investment grade" quality; that is, at the time of purchases, rated no lower than "Baa" by Moody's and no lower than "BBB" by Standard and Poor's. The Board, at their discretion, may impose a higher standard on an individual investment manager basis as circumstances or investment objectives dictate.

Credit ratings for the Pension Plan investments in debt securities at December 31, 2010 (excluding investments in the U.S. government and mutual funds which are not considered to have credit risk) are as follows:

Disclosure Ratings for Debt Securities (Moody's) (As a percentage of total fair value for debt securities)

Investment Type	Aaa	Aa3	Aa2	Baa2	_N/R_
U.S. Agency Notes	100%	0%	0%	0%	0%
Municipal Bonds	0%	34.3%	52.0%	8.9%	4.8%

Concentration of Credit Risk - The Pension Plan does not have a policy to limit the concentration of credit risk.

The various investments in securities, mutual funds and other investments are exposed to a variety of uncertainties, including interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is possible that changes in the values of these investments could occur in the near term. Such changes could materially affect the amounts reported in the financial statements of the Pension Plan.

3. INTERFUND RECEIVABLES

At December 31, 2011, the Pension Plan had receivable balances with the following Village funds:

Fund	Due from
General Fund Internal Service Fund	\$ 23,172 800
mornal control and	\$ 23,972

4. EMPLOYEE RETIREMENT SYSTEMS

<u>Plan Description</u>: Police sworn personnel are covered by the Pension Plan which is a defined benefit single-employer pension plan. Although this is a single-employer pension plan, the defined benefits, as well as the employee and employer contributions levels, are governed by Illinois Compiled Statutes (40 ILCS 5/3) and may be amended by the Illinois legislature. The Village of Bridgeview accounts for the plan as a pension trust fund. The Pension Plan issues its own stand-alone financial report. The publicly available report that includes financial statements and other required information for the Pension Plan may be obtained by writing the Village of Bridgeview, 7500 South Oketo Ave, Bridgeview, Illinois 60455.

As provided for in Illinois State Statutes, the Police Pension provides retirement benefits as well as death and disability benefits. Tier 1 employees (those hired prior to January 1, 2011) attaining the age of 50 or older with 20 or more years of creditable service are entitled to receive an annual retirement benefit equal to one-half of the salary attached to the rank held on the last day of service, or for one year prior to the last day, whichever is greater. The annual benefit shall be increased by 2.5% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least eight years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit of 2.5% of final salary for each year of service.

The monthly benefit of a police officer who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3.0% of the original pension and 3.0% compounded annually thereafter.

Tier 2 employees (those hired on or after January 1, 2011) attaining the age of 55 or older with ten or more years of creditable service are entitled to receive an annual retirement benefit equal to the average monthly salary obtained by dividing the total salary of the police officer during the 96 consecutive months of service within the last 120 months of service in which the total salary was the highest by the number of months of service in that period. Police officers' salary for pension purposes shall not exceed \$106,800 however, that amount shall increase annually by the lesser of ½ of the annual change in the Consumer Price Index or 3.0% compounded. The annual benefit shall be increased by 2.5% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75.0% of such salary. Employees with at least ten years may retire at or after age 50 and receive a reduced benefit (i.e. ½% for each month under 55).

The monthly benefit of a Tier 2 police officer shall be increased annually at age 60 on the January 1st after the police officer retires, or the first anniversary of the pension starting date, whichever is later. Noncompounding increases occur annually, each January thereafter. The increase is the lesser of 3.0% or ½ of the change in the Consumer Price Index for the proceeding calendar year.

4. EMPLOYEE RETIREMENT SYSTEMS (Continued)

At December 31, 2010 (the most recent information available), the Pension Plan membership consisted of:

Retirees and beneficiaries currently receiving benefits and terminated employees entitled to but not yet receiving benefits

24

Current employees
Vested and nonvested

Summary of Significant Accounting Policies and Plan Asset Matters

<u>Basis of Accounting</u>: The financial statements are prepared using the accrual basis of accounting. Employees and employer contributions are recognized as revenue in the period in which employee services are performed. Benefits and refunds are recognized in the period that they are paid.

Method Used to Value Investments: Fixed-income securities are reported at fair value. Short-term investments are reported at fair value. Investment income is recognized when earned. Gains and losses on sales and exchanges of fixed-income securities are recognized on the trade date. Insurance contracts are valued at contract value. Fair values are derived from published sources.

<u>Concentration of Investments</u>: The Pension Plan had the following investments (other than U.S. government guaranteed obligations and mutual funds) in one organization that represents five percent or more of net assets available for benefits: Federal Farm Credit Bank (\$2,964,102), Federal Home Loan Mortgage Association (\$935,202) and Federal Home Loan Bank (\$3,197,458).

Related-Party Transactions: There were no securities of the Village or related parties included in the Pension Plan's assets.

<u>Funding Policy and Annual Pension Cost</u>: If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without interest. The Village is required to contribute the remaining amounts necessary to finance the plan as actuarially determined by an enrolled actuary. Effective January 1, 2011, the Village has until the year 2040 to fund 90% of the past service costs for the Police Pension Plan.

Contribution rates:

Employer 30.54% Employee 9.91% Annual pension cost \$1,159,686 Contributions made \$958,956

<u>Actuarial Methods and Assumptions</u>: The following is information as of the most recent actuarial valuation:

Actuarial valuation date Actuarial cost method Amortization method December 31, 2010 Entry age normal Level % of projected payroll Closed basis

4. EMPLOYEE RETIREMENT SYSTEMS (Continued)

Remaining amortization period	30 years
Asset valuation method	Market value
Actuarial assumptions	
Investment rate of return	7.00%, compounded annually
Projected salary increases	5.50%
Inflation rate included	3.00%
Cost of living adjustments	3.00%

<u>Annual Pension Cost and Net Pension Obligation</u>: The net pension obligation for the Police Pension Plan is as follows for December 31, 2010 (the most recent information available):

Annual Required Contribution	\$ 1,103,735
Interest on NPO	190,792
Adjustment to the ARC	(134,841)
Annual Pension Cost	1,159,686
Actual Contribution	958,956
Increase in the NPO	200,730
NPO at December 31, 2009	2,725,600
NPO at December 31, 2010	\$ 2,926,330

Employer annual required contributions (ARC), actual contributions, and the net pension obligation (NPO) are as follows: The NPO is the cumulative difference between the ARC and the contributions actually made.

Trend Information:

Fiscal	Annual	Percentage	Net
Year	Pension Cost	of APC	Pension
<u>Ending</u>	<u>(APC)</u>	Contributed	Obligation
12/31/10	\$1,159,686	82.7%	\$ 2,926,330
12/31/09	1,049,464	96.1	2,725,600
